Technical Structure

Music Industry

Website Development

****

Concept

This CRM or ERP is designed to help the users to connect to the world of music.

This portal has 3 modules:

1. User
2. Sub User
3. Super Admin

NOTE: After the submission form, each activity will be shifted to the Super Admin's panel directly for verification, and after submission, the user can't edit the forms. Only Super admin's will be able to edit the forms.

This quote is based upon the page wise design and the discussion over the call. URL's for all the pages have been mentioned.

LINK: https://design.weblink4you.com/Auva-Digital-Media/htmLpageS/

Website Work: As there is a website which is directly linked with this CRM for below tasks:

1. All data related to recordings uploaded will reflect in the website
2. Top added songs
3. Recently added songs
4. Top rated will come from the API after songs are uploaded on the different platforms

Section: Login & Registration

Login: Already registered users will be able to login by providing the login credentials in the given fields.

Registration: The new user will be able to register in the website by providing the following details:

https://design.weblink4you.com/Auva-Digital-Media/htmLpageS/register.htm

- Personal Info

  - First Name (Textbox)
  - Mobile Number (Textbox)
- Login Info
  - E-Mail ID (Textbox)
  - Password (Textbox)
  - Confirm Password (Textbox)
- Upload Documents
  - Aadhaar Card
  - PAN Card
  - Bank Passbook
- Bank Details
  - Account Holder Name
  - Account Number
  - IFSC Code
  - Bank Name
- **Register (Button)**

User Module

Section: Dashboard Design
The Dashboard will have the view of all the sections with view more to see the details. Below are the sections mentioned:
